

Presso l'Istituto "Don Bosco" in Alessandria (Egitto), dal 19 al 23 Aprile 2015 si svolge il corso certificato per gli Insegnanti che dovranno tenere i corsi per installatori di sistemi fotovoltaici guidato dall' Ing. Simona De Iuliis, dipendente dell'ENEA - Italia.

Il corso è parte delle attività all'interno del progetto Europeo MED-DESIRE in Egitto. Ringraziamo gli Organizzatori che hanno scelto i nostri laboratori per svolgere questo corso avanzato.

Con il permesso dell'autore – Ing. Simona De Iuliis - si presenta parzialmente il progetto.

Key project objectives

Promoting solar market development

- Remove **technical barriers** to market development, by introducing new standards and/or improving the related certification processes and the quality of installations
- Design **innovative financial mechanisms** for the support of solar energy production and energy efficiency
- Help local administrations to design **solar ordinances** (e.g. obligations for new buildings to be equipped with SWH and/or PV)

the sun for you.

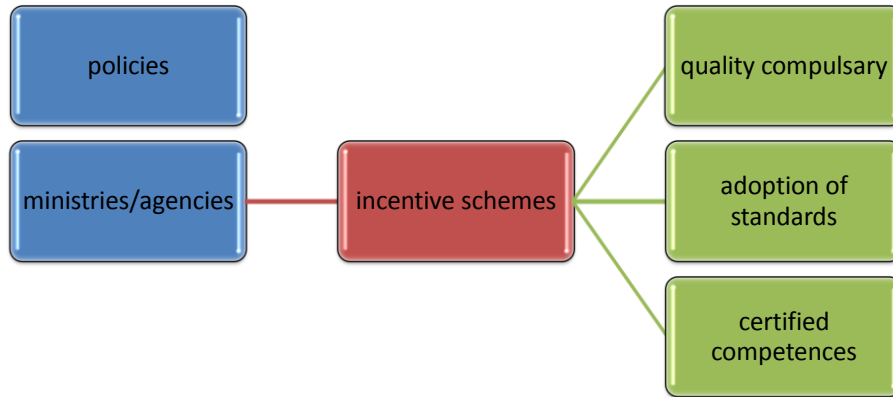

Approach

- **the same methodology**
- Assessing the **baseline**
- Highlighting **good practices**
- Defining **priorities**
- Drafting **proposals**
- **Training** the relevant actors and stakeholders
